CAPITAL, \$100.000

Statement

For the correction of possible misunderstandings, on the part of employees, citizens and others interested, as to the position of the mine operators of the Tonopah and Divide districts, whose properties are at present inoperative, the following is submitted:

There is and has been no intention to take advantage of the prevailing industrial conditions to cut wages. The new scale of wages was made teffective as an economic necessity and with the object of enabling the lower grade ores, of which very large tennages are available in the mines, and which could not be handled under previous high cost conditions, to be mined and treated. By the utilization of these low grade ofce the prefitable life of the mines and the consequent continued prosperity of the camp, will be greatly extended. Under present conditions it is particularly incombent upon all, cusplayers, employers and citizens, alike to sail in tiding over the financial depression-

The new wage scale was determined upon as the highest that could be paid, with no thought of further reduction so long as general conditions allowed operations to be continued and with the specific object of keeping the Tonopah wage wale, in the future as well as in the past, higher than the wales of other mining districts of the country,

The mines will be operated on the new wage scales as and when it is possible to operate. Because of the exodus of nancrs and other workers from the district it appears imperative to recruit labor from outside, but former employees who are willing to contentedly return to work will be wel-

Nothing can obstruct the continued operations of the mines and the prosperity of the community excepting proventure measures that may be taken by labor agitators and others and it is carnestly hoped that such preventive mean TONOPAH & DIVIDE MINE OPERATORS ASSOCIATIONS.
